The screenshot shows a Microsoft Teams meeting window titled "Marketing Sync". The top bar includes a status bar with a shield icon, a lock icon, and the time "22:06". To the right of the status bar is a toolbar with icons for Chat, People, Raise, React, View, Notes, Copilot, Apps, More, Camera, Mic, Share, and a red "Leave" button. The main area is a grid of six video thumbnails of participants: Serena Davis, Charlotte de Crum, Danielle Booker, Aadi Kapoor, Jessica Kline, and Kat Larsson. A Copilot sidebar is open on the right, displaying a notification: "Content will go away after the meeting. If there's AI-generated content you want to save, copy it and paste it in another place. WITH COPILLOT." Below this is a "Show meeting notes" button. The Copilot section shows a timestamp "10:35 a.m." and a note: "Mona said that the Summit Center project in Atlanta is set to start pre-construction planning and site preparation this April. Work on the new arena is scheduled to continue into next year." This is followed by a "Summit Center estimated timeline:" section with a bulleted list: "April-June: Pre-construction planning and site preparation", "July-September: Construction begins", and "October-December: Structural work". At the bottom of the sidebar, there are buttons for "Recap the meeting" and "List action items", and a text input field with the placeholder "How can I help you in this meeting?".

Copilot is available during the meeting
You can use Copilot without turning on recording or transcription.
